Informazioni su questo libro

Si tratta della copia digitale di un libro che per generazioni è stato conservata negli scaffali di una biblioteca prima di essere digitalizzato da Google nell'ambito del progetto volto a rendere disponibili online i libri di tutto il mondo.

Ha sopravvissuto abbastanza per non essere più protetto dai diritti di copyright e diventare di pubblico dominio. Un libro di pubblico dominio è un libro che non è mai stato protetto dal copyright o i cui termini legali di copyright sono scaduti. La classificazione di un libro come di pubblico dominio può variare da paese a paese. I libri di pubblico dominio sono l'anello di congiunzione con il passato, rappresentano un patrimonio storico, culturale e di conoscenza spesso difficile da scoprire.

Commenti, note e altre annotazioni a margine presenti nel volume originale compariranno in questo file, come testimonianza del lungo viaggio percorso dal libro, dall'editore originale alla biblioteca, per giungere fino a te.

Linee guide per l'utilizzo

Google è orgoglioso di essere il partner delle biblioteche per digitalizzare i materiali di pubblico dominio e renderli universalmente disponibili. I libri di pubblico dominio appartengono al pubblico e noi ne siamo solamente i custodi. Tuttavia questo lavoro è oneroso, pertanto, per poter continuare ad offrire questo servizio abbiamo preso alcune iniziative per impedire l'utilizzo illecito da parte di soggetti commerciali, compresa l'imposizione di restrizioni sull'invio di query automatizzate.

Inoltre ti chiediamo di:

+ *Non fare un uso commerciale di questi file* Abbiamo concepito Google Ricerca Libri per l'uso da parte dei singoli utenti privati e ti chiediamo di utilizzare questi file per uso personale e non a fini commerciali.

Se stai effettuando delle ricerche nel campo della traduzione automatica, del riconoscimento ottico dei caratteri (OCR) o in altri campi dove necessiti di utilizzare grandi quantità di testo, ti invitiamo a contattarci. Incoraggiamo l'uso dei materiali di pubblico dominio per questi scopi e potremmo esserti di aiuto.

+ *Conserva la filigrana* La "filigrana" (watermark) di Google che compare in ciascun file è essenziale per informare gli utenti su questo progetto e aiutarli a trovare materiali aggiuntivi tramite Google Ricerca Libri. Non rimuoverla.

+ *Fanne un uso legale* Indipendentemente dall'utilizzo che ne farai, ricordati che è tua responsabilità accertati di farne un uso legale. Non dare per scontato che, poiché un libro è di pubblico dominio per gli utenti degli Stati Uniti, sia di pubblico dominio anche per gli utenti di altri paesi. PREFACE.

In 1879 the publishers of Harpers' Latin Dictionary requested me to construct from it a smaller work, better adapted to the use of schools. In the conviction that a mere abridgment would not supply the wants of pupils, I resolved to compile an independent Dictionary, which should include all that a student needs, after acquiring the elements of Grammar, for the interpretation of the Latin authors commonly read in schools, and for correct expression in Latin, to the extent of the vocabulary of these authors. In forming the detailed plan for this purpose, it seemed desirable in many respects to deviate from the traditional practice in such works; but, unwilling to take such an important step on an individual opinion, I determined to submit the whole subject to the judgment of several eminent scholars and successful teachers, whose advice would be a safe guide. Accordingly, in April, 1881, the plan of the Dictionary, as then entertained, was printed in a private circular, with a number of proof-pages to illustrate it, and was laid before thirty of the gentlemen supposed to be most competent to improve it.

Besides the general request for suggestions and criticisms, particular attention was called to the following questions: 1. Can the list of authors be extended or shortened to advantage? 2. To what degree of fulness should the references be given? 3. Should the late inventions, the so-called letters *j*, *v*, for consonantal *i*, *u*, be recognized in the alphabet? 4. Shall only long vowels have the mark of quantity? 5. Shall the assimilation of consonants in prepositions compounded with verbs be restricted to classical usage, or follow that of the majority of school-texts? 6. Shall the principal roots of the language find a place, either in the vocabulary, or in a separate list? And shall an attempt be made to indicate the structure of stems? Other questions related to further particulars under these heads, or to the internal arrangement of articles, to the classification of meanings and constructions, and to the English-Latin Index which it is proposed to add hereafter.

The answers were most instructive. Nearly every scholar appealed to gave the inquiries careful and thorough consideration, and freely communicated his views; while, in several instances, new suggestions were made, of substantial value in improving the method of the work. Among those whose ripe scholarship and great experience in teaching were thus generously contributed to the plan, were Professors George M. Lane, Frederick D. Allen, and Charles R. Lanman, of Harvard College, C. S. Harrington of the Wesleyan University, Albert Harkness of Brown University, Thomas A. Thacher and Tracy Peck of Yale College, Henry Drisler and Charles Short of Columbia College, B. L. Gildersleeve and Charles D. Morris of the Johns Hopkins University, Austin Stickney, John S. White, James H. Morse, and E. G. Sihler of New York, Clement L. Smith of Cambridge, Moses Merrill of the Boston Latin School, W. C. Collar of the Roxbury Latin School, John Tetlow of the Girls' Latin School in Boston, Gustav Fischer of New Brunswick, W. Gordon McCabe of

Petersburg, Virginia, and George K. Bartholomew of Cincinnati. While no one of them is responsible for any feature of the book, least of all for its errors of judgment and defects of scholarship, each of them is gratefully remembered by the author as having rendered valuable assistance in solving the difficulties and diminishing the defects of its plan.

The first gentleman named above, Professor Lane, has not only favored me with invaluable advice and suggestions in planning the book, and permitted me, as difficult questions of detail arose, to call upon him for aid in their solution, but has read over most of the proof-sheets before casting, correcting their errors and enriching them by additions, to such an extent that no acknowledgment which this Preface can contain will adequately express the indebtedness of the work to him. If it shall be found, within its prescribed limits, to have attained in any degree that fulness, that minute accuracy, and that correspondence with the ripest scholarship and the most perfect methods of instruction which are its aims, the result is largely due to his counsel and assistance.

This book is not an abridgment of any larger work, nor is it a Dictionary of the Latin Language. It is designed to explain every word or phrase in Latin books commonly read in schools, including the entire works of Terence, Caesar, Cicero, Livy, Nepos, Vergil, Horace, Ovid, Juvenal, Phaedrus, and Curtius, the Catiline and Jugurtha of Sallust, and the Germania and Agricola of Tacitus. A few words, found in such extracts of Florus, Eutropius, and Justinus, as are sometimes included in elementary readers, have been added. But the additional words necessary to complete the vocabulary of such authors as Plautus, Lucretius, Catullus, Cornificius, Tibullus, Propertius, Varro, Quintilian, Martial, Tacitus (in his larger works), Cato, Pliny the Elder, Pliny the Younger, Seneca, Lucan, Statius, and others, who, for various reasons, are rarely read, except by special students, or in an advanced course, are omitted. The reader of these authors must be referred to a larger work. Within the limits of the literature to which reference is made, it is intended to give such an account of each word as shall make it completely intelligible in every passage in which it occurs, by exhibiting first its original meaning, and then the various modifications which that meaning suffered in usage, and the phrases in which association with other words affected it. The life of a language is largely in the construction and use of its current phrases, and, with a given vocabulary, the most useful Dictionary is that which most readily familiarizes the student with these. Every word or phrase which is cited, without comment, from the prose of the best period, may be accepted by the student as a model for use or imitation. Full references have been given, in order that the authority for each expression may be known; but, as far as possible, the citations have been drawn from the books most commonly read, in order that the explanations given may be available to pupils in the earliest parts of their course. Thus illustrations from Caesar's Gallic War, from the orations of Cicero against Catiline, and from the first books of Vergil's Aeneid, have been preferred to any others, wherever they serve the immediate purpose.

The treatment of proper names has been governed by considerations of practical utility. A general Dictionary should strictly contain only those which demand explanation as part of the language, treating them as word-forms. But it is convenient for the student to find, in the book to which he most constantly refers, enough information on every word to make its use intelligible. The names of persons and places, therefore, and the adjectives derived from them, which occur in texts frequently read in schools, have been placed in the vocabulary and very briefly explained. In this respect, especial attention has been given to Caesar's Gallic War, Cicero's

Select Orations (Halm), Laelius and Cato Maior, the first five books of Livy, with the twenty-first, twenty-second, and twenty-third, Nepos, Vergil, Horace, Terence, Juvenal, the Metamorphoses of Ovid, and the Germania and Agricola of Tacitus. For details of biography, history, mythology, and geography, however, reference must be made to special dictionaries or treatises. In the articles relating to government, trade, houses, money, time, military organization, dress, etc., such particulars as are necessary for an intelligent reading of the authors referred to have been given as briefly as possible, without attempting to make this in any sense a manual of antiquities.

The orthography adopted follows, in almost every particular, the standard rules of Brambach (Die Neugestaltung der lateinischen Orthographie in ihrem Verhältniss zur Schule, and Hilfsbüchlein für lateinische Rechtschreibung, translated, under the title 'Aids to Latin Orthography,' by W. Gordon McCabe). It is substantially that of the best critical texts, differing from them, indeed, in but one important point: the use of a distinct sign, V, v, for the Latin U, u, wherever it has a consonantal power. This sign, a modern invention, is misleading to an English or a German reader, in that the sound represented (the English initial *w*) is very different from the English or the German v; yet it is found in nearly all school-texts, and is defended by Brambach; and, in deference to the views of many practical teachers, it is retained here. The student must remember that the sign V, v, in Latin, is not an independent letter, but represents U, u, when it has lost its vocalism, and has become merely the transitional sound which arose between that vocalism and a following vowel. He will thus avoid a false pronunciation. In the table of roots this distinction of signs is, of course, discarded, as confusing. Another modern sign, J, j, in some texts represents the consonantal or transitional force of I, i, but it has no support in the history of the language, nor in the authority of the best contemporary scholars. It is appropriated in English to a sound (*j* in *jet*) wholly unlike the consonantal I, i (our *y* in *yet*), and thus suggests a perverse and intolerable pronunciation. The intrusion of it into the Latin alphabet is therefore not recognized in this book.

The long vowels in every word of the vocabulary are carefully distinguished by the usual mark, as far as they can be ascertained; including those of final syllables, whose quantity, in many Dictionaries, is left to be inferred from general rules. Every vowel without this mark is known or believed to have been short in pronunciation, though several cases remain in which the quantity of a vowel followed by two consonants is undetermined. For the first time, in any general vocabulary of the language, an effort has been made accurately to mark quantities, not for metrical purposes only, but for pronunciation. It is necessary, therefore, to discriminate between long and short vowels, as well where followed by two or more consonants as elsewhere, although the syllables in this case are always metrically long. Much labor has been given to this investigation; but the necessity of the discrimination has but recently been recognized by scholars, and in many syllables differences of opinion are still found between eminent authorities. I have relied on the direct testimony of writers who spoke the language, and on the evidence of Greek transcriptions, where these sources are available. Next to these in value are inferences from the treatment of the vowels in the Romance languages, from parallel and derivative forms in Latin, and from comparative etymology. But while the general results are given with confidence that they will be found trustworthy and useful, many of the details must be regarded as provisional only.

Most of the teachers consulted advised that the Roots of the language be inserted in the gen-

eral vocabulary in alphabetical order. But with profound respect to their judgment, and with consequent hesitation, I am compelled to limit that vocabulary to words actually spoken and written by the Romans. My plan requires, indeed, that only the particular forms of each word for which there is direct authority shall find an unquestioned place in the list; and therefore, where the nominative case of a noun or the present stem of a verb is not actually in use, it is enclosed in a parenthesis. Where the comparative and superlative forms of an adjective are actually in use, the fact is expressly noticed. No form is admitted to its regular position save such as may be unhesitatingly employed by the student in composing a theme upon a classical model. This rule would be disturbed, if the roots, which in Latin are not words but logical abstractions, the results of grammatical analysis, were treated as words. But the value of an acquaintance with them, and of the mental habit of recognizing them and of grouping words under them, is so great, that it has seemed desirable to present them in a separate Table, which will be found at the end of the volume. When the form in the vocabulary is followed by brackets, enclosing a root, this is to be understood merely as a reference to the Table, where the principal words containing the same Root will be found under it. Such a reference does not imply that the word is directly formed from the Root. It may be a derivative, primary or secondary, from a verb or noun containing the root. The formation of the word-stem from the Root must be explained by the Grammar, on whose province this book does not seek to encroach.

In many instances the designation of the Root to which a substantive or an adjective is referred, is followed by a reference to the paragraph [as, L. § . . .] of Professor G. M. Lane's Latin Grammar, now in preparation, in which the formation is explained. These references will be found valuable when the Grammar is published, but for the present may be disregarded.

It is due to the publishers of this work to express my deep sense of the energy, intelligence, and liberality which they have shown at every stage of its progress. While its preparation has occupied nearly as many years as they at first expected it to fill months, every delay and expense, which promised to make it more useful, has been welcomed by them, as if the controlling aim of the house were not commercial success, but to serve the cause of education.

AUTHORITIES.

The principal sources relied on for the vocabulary, definitions, phrases, and usages of different writers, have been Harpers' Latin Dictionary, Georges' Ausführliches lateinisch-deutsches Handwörterbuch (7th edition), Forcellini's Lexicon Totius Latinitatis (De Vit's edition), the Latin-German School Dictionaries of Georges, Heinichen, and Ingerslev, Klotz's Handwörterbuch der lateinischen Sprache (3d edition); also for Terence, Parry's index, and the editions of Fleckeisen and Umpfenbach; for Caesar, Eichert's Wörterbuch, and the editions of Dinter, Hinzpeter, Kraner and Doberenz; for Sallust, the text and index of Dietsch, and the Wörterbuch of Eichert; for Cicero, the texts of Baiter and Kayser and of Müller, Merguet's Lexicon zu den Reden des Cicero, Schütz's Lexicon Ciceronianum, the orations edited by Long, the Philippic orations edited by King, the editions of select orations and treatises by Halm, Madvig, Sorof, Heine, Jahn, Schoemann, Ramsey, Tischer, Piderit, and Holden, and those of select letters by Hofmann and Watson; for Vergil the Wörterbuch of Koch, and the editions of Forbiger, Ribbeck, and Conington; for Horace the text and indexes of Keller and Holder, the Wörterbuch of Koch, and the editions of Orelli, Dittenburger, Macleane, and Schütz; for Ovid the text of Merkel, the edition of the Metamorphoses by Haupt, those of the Fasti by Paley and by Peter, that of the Heroides by Schuckburg, the Wörterbuch of Siebelis and Polle, that of Eichert, and the index of Burmann; for Nepos the edition of Siebelis (by Jancovius), and the Wörterbuch of Koch; for Livy the editions of Weissenborn and Müller, and the Glossary of Ernesti; for the Germania and Agricola of Tacitus the texts of Halm and Ritter, the school edition of Church and Brodribb, the Lexicon Taciteum (only A to I) of Gerber and Greef, and that of Boetticher; for Phaedrus the Oxford text, the school edition (selections) of Raschig, the Wörterbuch of Eichert, and that of Schaubach; for Curtius the texts of Vogel and of Foss, and the Wörterbuch of Eichert; for Juvenal the text and index of Jahn, the edition of Mayor, and the notes and translation of J. D. Lewis. Much assistance in details has been derived from Kühner's Ausführliche Grammatik der lateinischen Sprache, the Grammars of Roby and of Madvig, Dräger's Historische Syntax, and Hauptpunkte der Livianischen Syntax, and Quicherat's Thesaurus Poeticus Linguae Latinae. For words borrowed from the Greek and other languages, I have relied on Vaniček's Fremdwörter im Griechischen und Lateinischen, on Weise's Griechische Wörter im Lateinischen, and especially on Saalfeld's Tensaurus Italograecus. The Formenlehre der lateinischen Sprache by F. Neue has, of course, been my constant companion.

For 'hidden quantities' I have consulted especially A. Marx, Hilfsbüchlein für die Aussprache der lateinischen Vocale, etc. (useful but with unsound theories); Schmitz, Beiträge zur lateinischen Sprache und Litteraturkunde; L. Müller, Orthographiae et Prosodiae Latinae Summarium; F. Ritschl's Opuscula Philologica; Osthoff's Geschichte des Perfects im Indogermanischen; Brugmann's Vergleichende Grammatik der indogermanischen Sprachen, Vol. I.; Brugmann and Osthoff's Morphologische Untersuchungen; E. Seelmann's Aussprache des Latein nach physiologisch-historischen Grundsätzen; G. M. Lane's List of Verbs in his (unpublished) Latin Grammar; and G. Gröber's Vulgarlateinische Substrate romanischer Wörter (A to P) in Wölfflin's Archiv für lateinische Lexicographie und Grammatik.

For historical, geographical, and social facts, constant reference has been made to the Dictionary of Greek and Roman Biography and Mythology, to that of Greek and Roman Geography, and to that of Greek and Roman Antiquities, all edited by Dr. William Smith; and to Marquardt and Mommsen's Handbuch der Römischen Alterthümer.

The books used in the etymological notes and appendix are mentioned in the introduction to the 'Table of Roots,' at the end of the volume.

Vestitus an vehiculum an comes? *Mil.* 54: eloquar an sileam? V. 3, 37: ferrum nunc hebet? an dextrae torpent? L. 23, 45, 9.—So with *-ne* pleonast.: obtrectatum esse, Gabinio dicam anne Pompeio, an utrique? id quod est verius, *Pomp.* 57.—By *ellips.* of verb, an becomes simply disjunctive between two words (nearly = aut . . . aut): cum Simonides an quis alius polliceretur (= rectene dico, an quis alius fuit?), *Fin.* 2, 104: cum id constaret, iure an iniuriā eripiendos esse reos, L. 2, 54, 7: Saucius an sanus, numquid tua signa reliqui? (sc. utrum adhibeatur), V. 2, 390.—**B.** Esp. **1.** The former interrog. clause is often implied in a previous affirmation, and the clause with *an* expects a negative answer: quid enim actum est? an litteris pepercisti? (*Was it as I have said?*), *or did you*, etc., i. e. *you surely did not*, etc., 2 *Verr.* 4, 27: an censes, ut de me ipso glorier, si, etc., *CM.* 82: at Pompei voluntatem a me abalienabat oratio mea. H. *S.* 2, 5, 48.—**b.** The former interrog. clause, to be supplied, expects a negative answer, and the clause with *an* is an implied affirmation: a rebus gerendis senectus abstrahit? Quibus? an iis, quae in iuventute geruntur? (=num aliis, an iis?) *CM.* 15: unde ordiar? an eadem attingam, quae, etc. (=num aliunde ordiar, an? etc.), *Tusc.* 2, 42.—So often annon? *or is it not so?* hem quo fretus sim . . . annon dixi, etc., T. *And.* 621: annon sensistis triumphatum hodie de vobis esse? *or have you not?* etc., L. 2, 38, 3.—Ellipt.: cuium pecus? an Meliboei? i. e. num alienum est, an est Meliboei? *Meliboeus's, I suppose*, V. *E.* 3, 1.

cēnsor, ōris, *m.* [censeo]. **I.** Prop., *the title of a Roman magistrate.* The office, founded B.C. 443, was held by two men, usually patricians who had held other high magistracies, elected (like the consuls and praetors) in the Comitia Curiata, but only once every five years. Their official rank was below that of praetor, but in honor and influence, after the dictatorship was abolished, they were commonly the first citizens of Rome. Their duties, which they swore to perform without favor or enmity, were to make official lists of senators, knights, members of tribes and aerarii, which should be the conclusive evidence of each man's standing and political and civil rights, removing at discretion to a lower rank any man whose character or conduct incurred their censure (v. infamia, nota); and which should also be the basis of every consular levy of troops; to receive sworn returns of taxable property from all citizens, and to make assessment of taxes, to be collected by the quaestors (v. census); and to farm the tolls and salt-works, to contract for public works and for animals for public sacrifice. Their labors in the census were ended by a solemn purification of the people (v. lustrum): Papirium Semproniumque censui agendo populus suffragiis praefecit: censores ab re appellati sunt, L. 4, 8, 7: in censu habendo potestas omnis censori permittitur, 2 *Verr.* 2, 131: censorum iudicia, *Clu.* 122: video animadvertisse censores in iudices, *Clu.* 119: cum Saturninum censor notasset, *Sest.* 101: qui eum ex senatu censor eiecerat, *Dom.* 123: quem censores senatu moverant, S. *C.* 23, 1: quem censores aerarium reliquisse se subscripserunt, *Clu.* 126.—**II.** Meton., *the title of a magistrate in a colony or province, whose duties were similar to those of the censor at Rome:* censores in Siciliā creati, 2 *Verr.* 2, 131: iurati censores coloniarum, L. 29, 15, 10 al. — **III.** Fig., *a severe judge of morals, a censurer, critic:* pertristis quidam patruus, censor, magister, *Cael.* 25: castigator censorque minorum, H. *AP.* 174: Cum tabulis animum censoris sumet honesti, H. *E.* 2, 2, 110.
